

## September 18<sup>th</sup>

### Reading/Language Block

This week learned about safe internet searching and how to use our school resources to research information. The class choose their topic for their weather research project. In addition, your child learned how to use quotation marks and wrote a paper about an amazing feast they shared with four famous people. This should help prepare your child for their first narrative paper which will be a tall tale.

### Math

We finished Unit 1 this week! The class did a great job on their first test. Next week, we will begin switching classes for math. For the first 40 minutes of math class, I will introduce and teach the new math material. Then students will then switch math classes and receive an additional 25 minutes of math instruction at their comfort level. They are really excited about switching!

**Autumn!!**  
Autumn is a second spring when every leaf is a flower.

Albert Camus

### Science

The class learned about atoms and their properties this week. Next week they will take a Science test on the material covered over the last two week on Friday. Hint hint: know your vocabulary words for the test. We will also do some density and mass labs next week.

### NWEA

The class did a great job on their first NWEA reading test. Thank you for sending your child to school well-rested and well-fed! They will take the NWEA math test on Monday. Same drill ☺

### PTA Reminders

Charleston Wrap orders are due on Monday. Also, THANK YOU for all of the Box Tops for Education that have been coming in!! We are also collecting pop tops for Ronald McDonald House. Thank you for all of your support!

Have a wonderful weekend!  
Kellie Dravet
