

September 25th

Reading/Language Block

This week we read stories about famous women and African American athletes and some of the hardships they endured and barriers they faced. Our reading skill this week was reading critically and distinguishing fact from opinion. We also compared and contrasted the lives of athletes who broke gender and racial barriers to the athletes of today. We continue working on our weather research. Next week, your child will begin writing their tall tale.

Math

We began the week by reviewing decimal place value and how to add and subtract decimals. Remember to line up the decimal points! At the end of the week, we played some math games to reinforce this concept. The class is really enjoying their math extension switch time!

Use WHAT TALENTS YOU POSSESS; THE WOODS WOULD BE SILENT IF NO BIRDS SANG THERE EXCEPT THOSE THAT SANG BEST.

-Henry van Dyke-

Science

This week your child finished learning about atoms and did two labs to measure weight, mass, density and buoyancy. Next week they will work with Mrs. Lynn on light energy.

School Notes

Book orders are due on Friday if you would like to place an order. Thanks to everyone for continuing to bring in Box Tops for Education and pop top tabs for Ronald McDonald House. We really appreciate it!

Have a wonderful weekend!
